

**IBISWorld** is an online database offering a wealth of powerful and comprehensive information on industries, companies and the business environment in Australia, as well as industry reports covering New Zealand, the USA, the UK, China, and more broadly on a global scale.

IBISWorld Industry reports can also easily be found by using the LRC search 'All resources' function, combining the words '**IBISWorld**', '**industry**' and a **keyword describing the industry you are interested in**. You could also include the country to further refine the results.  
**E.g.** IBISWorld industry hotels Australia

*The different modules of the database are explored overleaf:*

### Industry Reports

With over 600 industry reports available, each provides comprehensive, current analysis, equivalent to 30 to 40 pages covering market characteristics, operating conditions, current and historical performance, industry outlook, major industry participants, key statistics and more. Reports are usually updated two to three times a year.

### Global Industry Reports

The 75 Global Industry Reports offer the same clear and up-to-date forecasts as the country-based industry reports, but instead focus on industry performance in key areas from a regional perspective, such as Europe, Asia, the Middle East and more.

### Specialised Industry Reports

Reports covering emerging, niche or smaller industries, follow the same format as the other industry reports.

### Australian Industry Lists

Pre-defined lists of selected data from the 500 ANZIC industry classifications, that can be downloaded to an Excel Spreadsheet, e.g. Top 50 Growth Industries.

### Australian Risk Ratings Reports

IBISWorld's 500 Australian Industry Risk Ratings analyses determine how much risk an industry will face over the following 18 months by assessing the operating conditions; industry structure, revenue outlook and key drivers. The risk rating is a numerical score supported by the detailed analysis

### Australian Business Environment Profiles

Every industry faces a set of drivers outside its control that have a material effect on industry performance. The Business Environment Profiles provide insight into these key drivers, including exchange rates, interest rates, commodity prices, weather conditions, consumer attitudes and consumer demographics.

### Australian Company Reports

Company Reports analyse the 2000 largest Australian and New Zealand companies; listed & non-listed public, private, foreign owned, trusts & government businesses. Each profile contains details of key personnel, company financials, industry and product focus, ownership structure as well as the auditors, bankers and solicitors of the company where available.

### Australian Company Wizard and Company Lists

Download and analyse the top companies in predefined categories, including revenue, industry sector and shareholders.

### UK Brexit Impact Statements

These statements provide an overview of the impact on industry of the UK referendum to exit the European Union. Also included as part of 'UK Industry Reports'.

### Getting Started (on campus or off campus)

Access to the Learning Resource Centre's electronic resources is available via the LRC homepage <http://library.angliss.edu.au/> - 'Find Information' link.

To search IBISWorld, select 'Databases', then click the icon.

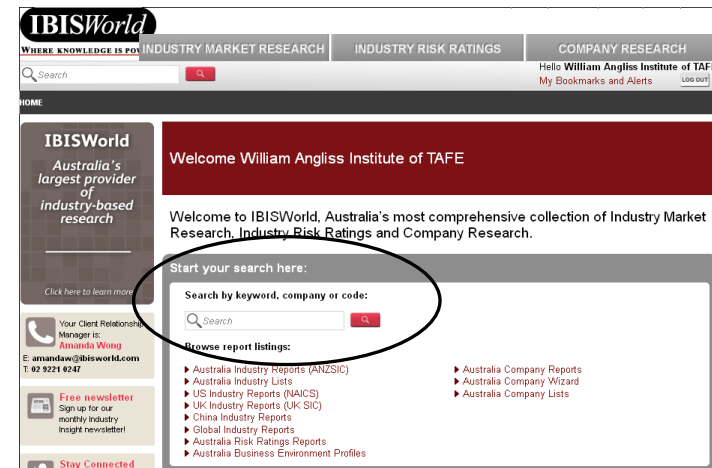

Select from the tabs to navigate to the relevant collection of reports within each of the modules.

To select your favourite collection of reports within these three tabs hover your mouse over the relevant tab.

**Note: - Greyed out reports indicate that we don't have a subscription**

Alternatively you can utilise the **Search** box to search by keyword, Company or Code, or **Browse report Listings**.

You can navigate through an Industry or Company report by choosing the appropriate tab located at the top of the screen with the added functionality of a drop-down list so you are able to navigate to the relevant chapter.

Once you have selected the **Download Report PDF** you are able to either save or print the report.

For further assistance please see staff at the service desk within the Learning Resource Centre.

You can also choose to utilise the utility buttons for different functions such as:-
